

INTRODUCING  
THE

# NEXT

# GENERATION

**LMI**<sup>®</sup>  
Linear Measurement Instruments, Corp.

Introducing the Next Generation of  
7 NEW Seal Gap Gauges - SGX

## PRODUCT FEATURES:

- Accurate - As low as .02mm
- Durable - Designed and tested to MIL-STD 810G for shop floor use
- Easy to read OLED screen
- Bluetooth communications - 25+ meter range
- Repeatable - Less than 10% GRR studies common
- Long lasting battery - Provides over 150,000 samples during 50 hours of continuous use
- Battery Level Indicator - Always know how much battery life remains and be able to recharge it in 3 hours or less using industry common USB-C connections
- Lock out feature - Prevents accidental changes to any of the gauge's configuration
- Zeroing on the gauge - Easy zero saves time to configure and verify the gauges master position
- Screen Orientation - Flips screen orientation automatically or using the manual button push
- Measure most doors and lift gates with standard gauges, however, special designs are always possible
